

BE PREPARED FOR THE JOURNEY OF A LIFETIME

Moving to a new country can be an extremely exciting and rewarding journey for you and your family, however, it does come with some unique challenges that need careful consideration and specialist advice. Failure to pay sufficient attention to your financial setup can lead to significant errors and inefficiencies that could make your financial objectives more difficult to achieve.

GET FAMILIAR WITH YOUR NEW FINANCIAL LANDSCAPE

The sooner you take the time to know and understand the Australian financial system, the quicker you can set yourself on a path to achieve your financial and lifestyle goals.

If you do not take the appropriate care when setting up your finances when you first arrive, it is easy to make costly mistakes:

Incurring unnecessary taxes

Not managing cashflow and expenses effectively

Errors structuring personal and financial assets

Failure to adequately protect through insurance and estate planning

WHY PARTNER WITH APT?

1 WE WORK WITH YOU TO SET YOUR GOALS

It's even more important for expats and migrants to clearly define their short, medium and long-term financial goals. We'll discuss your unique requirements, including where you and your family intend to reside, what lifestyle you wish to fund in your new home, and how you should allocate your resources to achieve your personal and financial goals.

2 WE TAKE THE COMPLEXITY OUT

Living and working abroad means navigating unfamiliar tax systems. Any financial or investment decision can have tax implications both in the country where you are living and at home. Our advisers are here to guide you and develop the appropriate tax-effective strategies for your particular situation.

3 WE REDUCE YOUR RISK

Understanding your level of cover for personal risk is important when living abroad. Your employer may provide some cover, however, understanding the potential gaps is critical. We will identify your risks and advise you on the appropriate level of protection.

4 WE PROTECT YOUR ASSETS

Every country and jurisdiction has different asset succession and estate tax laws. Multiple wills may be needed for each jurisdiction where an asset is held. Our specialist consultants can ensure appropriate wills are in place.
